

`driver_post::run_driver_post`

```
graph RL; post[post] --> run_driver_post[driver_post::run_driver_post];
```

A diagram illustrating a call to the `driver_post::run_driver_post` function. On the left, a gray rectangular box contains the text `driver_post::run_driver_post`. On the right, a white rectangular box contains the text `post`. A dark blue arrow points from the `post` box to the `driver_post::run_driver_post` box, indicating that the `post` event triggers the execution of the `run_driver_post` function.

`post`
