

```
grid_utilities::apply  
_disc::apply_disc_4d_real
```

```
graph LR; A["grid_utilities::apply<br/>_disc::apply_disc_4d_real"] --> B["str_utilities::i2str"]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text `grid_utilities::apply` and `_disc::apply_disc_4d_real` on two lines. A blue arrow points from the right side of this box to the right side of a white rectangular box on the right. The white box contains the text `str_utilities::i2str`.

```
str_utilities::i2str
```
